"BY THEIR WORKS YE SHALL KNOW THEM"

Following is a comparison of the records of the two great political parties during their reign in Kentucky, as extracted from speeches of Gov. Beckham and Ollie James delivered in Hickman last Saturday

REPUBLICAN RECORD 1896-1900

During the four years, the fall tax rate in 1896, from 47 cents. Notwithstanding the fact that the bonded and debenture interest of over two millions of dollars for Democratic officials to the sum of \$46,181.06 in the year 1900.

Republican legislators opposed and Kentucky's only Republican governor vetoed the Democratic railroad rate law, delaying operation of this splendid law for several years, thereby delaying reduction of freight rates to the shippers of the state.

Assisted through members of legislature, in delaying adoption of the Uniform text book law, a Democratic platform measure, thereby continuing for several years the high prices charged for school books by the trust, and enabling them to dispose of a greater number of books at the expense of the tax payer by preventing the adoption of the uniform system.

The deficit in management of the two state prisons, from 1895 to 1899 inclusive, the period of Republican control, was \$237,111.07. They thus spent more money in excess of income of the prisons in the three years of their regime than the Democratic party will spend in 1907 in

paying salaries of all state officials circuit judges and in maintaining the state fair, normal schools, and pure food station. The excess over these payments is \$5,911.07.

Republican governor and orator dropped efforts to collect the big Kentucky war claim, after investigating it. Later after he had retired from office, the Republican governor sought employment as an attorney to assist in making the collection. Look to the parallel columns for what the Democratic administration accomplished in this matter.

Established a record within the first few months of 1896 of placing the military power of 1896 above the civil power, true to their instinct of radical hate and Southern Republicanism. Continued this policy throughout the four years of the Bradley administration, and during the short time the unspeakable Taylor was at the head of affairs, using soldiers to prevent the general assembly from electing a United States senator in 1896; soldiers at the polls in 1899 in Louisville, and at Frankfort in 1900 to disperse the legislative body. Such brazen violation of the constitution by officials sworn to enforce its provisions encouraged their followers to lawlessness, resulting in the cruel assassination of William Goebel.

Confronted with a bonded and floating debt of over two millions of dollars in 1900, the Democratic officials have met and paid it upon a tax rate of fifty cents. Every obligation has been met, and June 30, last, there was in the public treasury \$294,242.98. There will be on deposit at close of Administration \$1,250,000.

Total appropriations to public institutions during seven and one half years of democratic rule, reach in round numbers \$2,700,000. Every institution has been modernized and is being operated under a most approved system, a new capitol provided for.

The average per capita for common schools for four years has been raised to \$3.50, with a record per capita for this year of \$3.40, which is not "padded" for a single cent. All debts of the school fund are paid. And State normal schools have been established.

Democratic legislators enacted the Railroad rate law, a Democratic platform measure, and under its operation thousands of dollars have been saved to the shippers of the State. The Republicans this year were afraid to give opposition to the author of this law.

The Franchise Tax law has been

DEMOCRATIC RECORD 1900-1907

put into full operation under Democratic administration, though not with a view of oppressing, but of bringing all to bear their portion of taxation. For the truth of this statement look at the records of the Auditor's Department for 1906. That year the railroad corporations paid taxes on a valuation of \$24,910,262 or \$124,551.39 in taxes. Compare these figures with those in the opposite column.

Democratic legislators adopted a uniform text book law, a Goebel platform measure of 1899, thereby bringing to the fathers of the Commonwealth a uniform and better system of school books and at less cost than they had before that time been compelled to pay the school book trust. This law enables the family to use the books until they are worn out.

From a deficit shown each year in the management of the State prisons, they have been brought to pay a profit in their operation. This profit from December, 1904, to August, 1907, was \$2,969.44. Democratic officials have made most advantageous contracts in the history of the prisons, the Frankfort prison showing an excess of income over expenditures for the month of July last, of \$6,821.23. While accomplishing these things the prisons have been modernized.

In no department has the Democratic management accomplished more than in the Agricultural Bureau, Farmers' Institutes; a State fair, a labor bureau, expert lecturers, a forestry department and one of immigration are interesting farmers in every section and the farmer is having more money devoted to his welfare than ever before in the history of the state. The Labor Bureau has accomplished much for life and health of the laboring classes.

Democratic administration has expended for public printing in eight years the sum of \$371,651.96, or an average of \$45,813.15. Compare these figures with those in the opposite column and you will find an excess per year, under Republican administration, of \$2,467.91.

A Democratic governor pressed to collecting the Kentucky war claim, amounting to \$1,333,000, and secured its collection for a smaller percentage than is shown to have been paid by any other state in the union for a similar service. He didn't employ his predecessor to make the collections.

DEMOCRATIC TICKET.

U. S. Senator—J. C. W. Beckham.

Governor—S. W. Hager.

Attorney General—John K. Hendricks.

State Superintendent of Schools—M. O. Winfrey.

Commissioner of Agriculture—J. W. Newman.

Lieut. Governor—South Trimble.

Auditor—H. M. Bosworth.

Secretary of State—Hubert Vreeland.

Treasurer—Ruby Laffoon.

Clerk of Court of Appeals—John B. Chensault.

State Senator—E. M. Taylor, of Fulton.

Representative—W. J. Jackson.

Railroad Commissioner, First District—M. D. Ferguson.

"PINXIT."

And so he did—to suit himself. Referring to Mr. Willson.

He said the democratic administration had accomplished the wonders they boast of by increasing the taxation.

Well, admit that the tax rate is 5 cents higher than it was when the republicans had charge of affairs of the State.

If the democrats can bring the State out of debt, a debt of two millions of dollars which was left for them to pay, built a handsome two million dollar State Capitol, endowed a splendid State Normal—all for the benefit of republicans as well as democrats, besides paying the expenses of the administration, and leave a surplus of a million dollars in the treasury, on no slight an increase in the tax rate, then why should not the democrats be accorded the compliment of continuing in charge of office? He did not tell you that the republicans administered under a tax rate of 50 cents, then at the close of their administration, lowered it in order to handicap the democrats. The raise was absolutely essential to pay the deficit left by them.

He dwelt at length on the pardon question. He did not tell you, nor did he think perhaps that you knew that before the pardons were granted that petitions were circulated by the residents of the communities in which the criminals were sentenced, and in many cases signed by the judge and jury which tried and sentenced the criminal. No, he misled you, although he said in the beginning that he would attempt to use no smooth words.

He had lots of papers, yes, called them proofs, and records, but what were they? They were clippings from the Louisville Herald, the republican organ. He told you about the recent primary voting (ence, furniture, trees and other inanimate bodies. He showed you a piece of paper and said they, (republicans) had had the records, but now they were gone. No doubt, The Louisville Herald is the only authority that has ever been found on this charge, and it has never appeared in any other paper.

He told you that Mr. Watterson, of the Courier-Journal, wrote a sensible editorial when he said that it

was not good policy to vote for a nominee whether he was worthy or not, (referring to the Pennsylvania frauds), and thus reminding you that you should disregard party affiliations this fall and vote for him. Now he does not believe, he says, that one should vote the party ticket just because it is his party. Then why does the negro vote the republican ticket? Simply because he is a republican, and the majority of them do not know why. Still he exhorts you, as democrats, to listen to his one-sided argument and his denunciation of the democrats, and go to the polls in November and elect him and the republican ticket to the State offices.

Why did he define his position on the negro question, having declared in the republican stronghold of the state that he approves Roosevelt's action in dealing with a negro, and said he would do the same himself. He was asked to do this, yet he never broached the subject. Yes, verily, "Pinxit."

Mr. Willson's Speech.

Augustus E. Willson addressed the voters of the County, at the City Hall, Monday night. A large crowd heard him, possibly a bunfire of the crowd being negroes. Mr. Willson is the republican candidate and nominee for Governor, and expounded his gospel to suit his followers. Although he announced at the beginning that he would not make a partisan speech, not a single opportunity was missed to score and denounce every man on the democratic ticket, and to earnestly appeal to the democratic voters to vote the Republican ticket "just once" so that he could get control of the affairs of the state. He is a gentleman of pleasing personality, and the audience listened attentively to his address, but not much enthusiasm was shown.

He was asked during the day previous to the speech to define his position on the negro question, as he has been quoted as having approved Roosevelt's action in dealing with a negro, and saying that he would have done the same thing. He never mentioned the subject.

Easy to Mix This.

What will appear very interesting to many people here is the article taken from a New York daily paper, giving a simple prescription, as formulated by a noted authority, who claims that he has found a positive remedy to cure almost any case of backache or kidney or bladder derangement, in the following simple prescription, if taken before the stage of Bright's disease.

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarasaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and again at bedtime.

A well-known druggist here at home, when asked regarding this prescription, stated that the ingredients are all harmless and can be obtained at a small cost from any good prescription pharmacy, or the mixture would be put up if asked to do so. He further stated that while this prescription is often prescribed in rheumatic affections with splendid results, he could see no reason why it would not be a splendid remedy for kidney and urinary troubles and backache, as it has a peculiar action upon the kidney structure, cleansing these most important organs and helping them to sift and filter from the blood the foul acids and waste matter which cause sickness and suffering. Those of our readers who suffer can make no mistake in giving it a trial.

TO MAKE PEARY DASH FOR POLE.

Commander Peary Gets Three Years' Leave of Absence.

New York.—The expedition of Robert E. Peary, U. S. N., for one of the most daring of the navy, has been announced by the secretary of the navy, as it is considered the only that command a heavy detachment of men to make a dash across the ice to reach the north pole. The expedition is to leave in a steamer which will make its way northward by the Arctic route, and will be supported by a smaller ship. Preparations for the dash to reach the pole have been well under way.

R. E. PEARY, U. S. N.
(The Will Make Another Attempt to Reach the North Pole.)

Lifsey Shoots Boy.

Dresden, Sept. 30.—[A. Lifsey, depot agent and telegraph operator at Ralston, Tenn., was placed jail here this afternoon in default bond, charged with shooting intent to kill a young man by name of Elhan French. It appears that the French boy went to the depot to meet his mother, who had been in Union City. The train arrived Ralston a few minutes after midnight. Lifsey was sleeping in the depot and heard the boy walking the platform and shot at him through the door of the waiting room, attacking the boy in the arm, back and shoulder. He fell to the ground and was carried home and is now in a bad condition and may die. Lifsey was arrested and the case is set for a trial and continued over Wednesday, awaiting the result of the boy's injuries. Lifsey was formerly from Huntington and is a member of a good family there. Commercial Appeal.

Lisby learned telegraphy at the office in Hickman, and is well known here. He left to accept a position on the road only a few months ago after a hard struggle to make a way and learn the business. So to hear of this unfortunate affair.

TWO PATHS IN LIFE.

Just in front of every young man
and young woman who reads this de-
partment are two paths leading into
the future, and it is for them to se-
lect which path they will journey in.
To aid them in selecting are their
neighbors, some of whom in early
life selected one path and others the
opposite. The neighbor who made the
wise choice can be seen return-
ing to his home for the evening
meal, his face radiant with joy as
the children meet him at the gate,
each one endeavoring to get the first
kiss. The other neighbor goes
home through the alley, his step is
unsteady, his face flushed from dis-
sipation, the children flee to the moth-
er as he approaches. These two
neighbors had an equal start upon
life's voyage, the difference now ap-
parently visible is caused by the paths
they selected to travel in at the be-
ginning of the journey. A few years
of training in our schools upon the
one hand, or on the streets upon the
other hand will make all the differ-
ence you see in the neighbors. A boy
of study and training in a few years
moulds lineament of the face into the
resemblance of the first picture of
manhood, while by a law equally in-
evitable, idleness and dissipation
bring out all the lower animal facul-
ties, which reveal themselves in the
depressed forehead, the hard eye-
brow, the coarse mouth so plainly
developed in man who chose the
wrong path. The boy who selects
the wrong path soon becomes a
rowdy and blackleg and if he es-
capes the prison and gallows and
reaches the middle of life we find
him a drunken loafer, sneaking
around the gashop in hope of se-
curing a treat from some one who
knew him in his flush days while he
who has chosen the other path, as he
passes the "mid-journey of life"
and slowly descends the slope to-
wards age, grows daily richer in the
love and esteem of those around him,
and in the bosom of the family that
gathers around his hearth, lives
over again his happy youth and
earliest manhood. What different
picture is presented in the fate of
him who has chosen the returnless
downward path. The shadows deep-
en as he descends the slope of ill
life. He has been successively useless,
a pest and a burden to society and
when he dies there is not a soul to
wish his life had been prolonged.
Two lives like these lie in possibility
enfolded within every infant born in-
to the world. Let every young per-
son who reads this department study
well the pen painting of these two
lives and select the right path upon
which to start upon life's journey.

HOW TO BEGIN MARRIED LIFE

In the first solitary hour after the
ceremony, take the bridegroom and
demand a solemn vow of him and
give him a vow in return. Promise
each other, sacredly, never, not even
in jest, to wrangle with each other,
never to bandy words or to indulge
in the least ill-humor. Never, we say,
never! Wrangling in jest, and put-
ting on an air of ill-humor merely to
tease, becomes earnest by practice.
Mark that! Next, promise each other
sincerely and solemnly, never to
keep a secret from each other, under
whatever pretext, and what-
ever excuse it might be. You must
continually, and every moment, see
clearly into each other's bosom.
Even when one of you have com-
mitted a fault, wait not an instant, but
confess it.

And as you keep nothing from each
other, so, on the contrary, preserve
the privacies of your home marriage
state and heart from father, mother,
sister, brother, aunt and all the world.
You two, with God's help, build
your own quiet world. Every third
or fourth one you draw into it with
you will form a party and stand be-
tween you two. That should never
be. Promise this to each other.
Remember the vow at each tempta-
tion. Your souls will grow, as it
were, to each other, and at last be-
come as one. Ah, if many a pair
bad, in our marriage day, known
